Subject Index

Abscess
  Actinomycosis of the brain. Case report, 131
  Surgical treatment for fungal infections in the central nervous system, 371
Accessory nerve
  Accessory nerve palsy following carotid endarterectomy. Report of two cases, 630
Acoustic neuroma
  Management of acoustic neuromas, 1978–1983, 175
  Preservation of hearing in patients undergoing excision of acoustic neuromas and other cerebellopontine angle tumors, 168
Acquired immunodeficiency syndrome
  Electron microscopic diagnosis of cerebral toxoplasmosis. Case report, 470
Acromegaly
  The pathogenesis of acromegaly. Clinical and immunocytochemical analysis in 75 patients, 35
  Pituitary apoplexy in an acromegalic patient during bromocriptine therapy. Case report, 288
Actinomycosis
  Actinomycosis of the brain. Case report, 131
Adenohypophysis
  Reduction of blood flow in the adenohypophysis of rats by bromocriptine, 120
Adenosine
  Cerebrovascular effects of hypocapnia during adenosine-induced arterial hypotension, 937
Adenosine triphosphate
  Acute changes in regional cerebral metabolite values following experimental blunt head trauma, 88
Adhesion
  Vicryl (polyglactin 910) mesh as a dural substitute, 448
Alloplastic orbital implant
  Fibrosis surrounding a silicone implant simulating recurrent orbital meningioma. Case report, 467
Alzheimer's disease
  Intracerebral hemorrhage due to cerebral amyloid angiopathy. Case report, 965
American Association of Neurological Surgeons
  From space exploration to utilization of the space perspective, environment, and materials. The 1985 Harvey Cushing oration, 317
  The need to trace our roots in difficult times. The 1985 AANS presidential address, 485
  Report of the Research Subcommittee of the Joint Committee on Education of the American Association of Neurological Surgeons and the Congress of Neurological Surgeons. Letter, 144
Amyloid angiopathy
  Cerebral amyloid angiopathy presenting as transient ischemic attacks. Case report, 963
  Intracerebral hemorrhage due to cerebral amyloid angiopathy. Case report, 965
Analgesia
  Use of intrathecal morphine for postoperative pain relief following lumbar spine surgery, 413
Anastomosis, *see also* Revascularization
  Carotid artery end-to-end anastomosis in the rat using the argon laser, 771
  Centrocentral anastomosis in the prevention and treatment of painful terminal neuroma. An experimental study in the rat, 754
  Occipital artery to extradural vertebral artery bypass procedure. Case report, 622
  Results of extracranial-intracranial arterial bypass for bilateral carotid occlusion, 521
  Temporary bypass for AVM surgery. Letter, 654
Anatomical study
  The lateral spinal artery of the upper cervical spinal cord. Anatomy, normal variations, and angiographic aspects, 235
  Perforating branches of the middle cerebral artery. Microsurgical anatomy of their extracerebral segments, 266
Aneurysm
  Acute hydrocephalus after aneurysmal subarachnoid hemorrhage, 355
  Aneurysmal bone cysts of the spine. Report of 17 cases, 685
  Cognitive impairment after early aneurysm surgery. Letter, 655
  CT demonstration of spontaneous internal carotid artery dissection. Case report, 792
  Dipyridamole and postoperative ischemic deficits in aneurysmal subarachnoid hemorrhage, 699
  Incidence of multiple intracranial aneurysms. Influence of arterial hypertension and gender, 49
  Multiple intracranial aneurysms: determining the site of rupture, 342
  Neoplastic cerebral aneurysm from metastatic gestational choriocarcinoma. Case report, 644
  Occipital artery to extradural vertebral artery bypass procedure. Case report, 622
  Transpetrosal approach for aneurysms of the lower basilar artery, 857
Aneurysm clip
  Biocompatibility analysis of the Sundt-Kees booster clip and the Drake aneurysm clip. Technical note, 980
Angiography
  Cerebal gumma. Case report, 301
  Multiple intracranial aneurysms: determining the site of rupture, 342
Angioma
  Cystic cavernous angiomas of the posterior fossa. Report of three cases, 797
Anterior cervical fusion
  History of the anterior cervical fusion technique. Letters, 817
Antibiotic therapy
  Nonsurgical treatment of subdural empyema. Case report, 128
Anticoagulation therapy
  Evaluation of the risks of anticoagulation therapy following experimental craniotomy in the rat, 959
Antidiuretic hormone
  Fluid balance and secretion of antidiuretic hormone following transsphenoidal pituitary surgery. A preliminary series, 404
Antifibrinolytic therapy
  Source of fibrin/fibrinogen degradation products in the CSF after subarachnoid hemorrhage, 573
Anti-siphon device
  Anti-siphon shunt device: technical details. Letter, 819
Arachnoid cyst
  Infratentorial arachnoid cysts, 210
Arachnoid granulation
  The morphology of cerebrospinal fluid drainage pathways in human arachnoid granulations, 867

Index

Arginine vasotocin
  The pineal gland: anatomy, physiology, and clinical significance, 321
Arteriovenous malformation
  Arteriovenous malformations of the lateral ventricle, 185
  Intraventricular hemorrhage in a term neonate secondary to a third ventricular AVM. Case report, 640
  Morphological studies of human arteriovenous malformations. Effects of isobutyl 2-cyanoacrylate embolization, 421
  Stenotic and occlusive disease of the venous drainage system of deep brain AVM's, 180
  Successful management of an intracranial arteriovenous malformation by conventional irradiation, 193
  Temporary bypass for AVM surgery. Letter, 654
  Treatment of ophthalmofacial-hypothalamic arteriovenous malformation (Bonnet-Dechaume-Blanc syndrome). Case report, 794
  Use of balloon occlusion and substances to protect ischemic brain during resection of posterior fossa AVM. Case report, 626
Artery, *see* specific arteries
Aspirin
  Effect of perioperative platelet inhibition on postcarotid endarterectomy mural thrombus formation. Results of a prospective randomized controlled trial using aspirin and dipyridamole in humans, 693
Astrocytoma
  Astrocytomas of the spinal cord in children and adolescents, 669
  Diffuse form of primary leptomeningeal gliomatosis. Case report, 283
  Immunobiology of primary intracranial tumors. Part 10: Therapeutic efficacy of interferon in the treatment of recurrent gliomas, 719
  Juvenile pilocytic astrocytoma of the cerebrum in adults. A distinctive neoplasm with favorable prognosis, 382
  Neurosurgical management of low-grade astrocytoma: Erratum. Letter, 819
  Pleomorphic xanthoastrocytoma with 18-year survival. Case report, 808
  Radical resection of intramedullary spinal cord tumors in adults. Recent experience in 29 patients, 492
  Turcot's syndrome (glioma polyposis). Case report, 804
Auditory nerve
  Loss of auditory function in microvascular decompression for hemifacial spasm. Results in 143 consecutive cases, 17
Autoregulation
  Blood flow and autoregulation in rat pituitary gland, 116

Barbiturate
  Acute cerebral revascularization, 200
  Failure of prophylactic barbiturate coma. Letter, 310
Basal cistern
  Absent basal cisterns on computerized tomography. Letters, 310
Basilar artery
  Transpetrosal approach for aneurysms of the lower basilar artery, 857
BCNU
  Phase III comparison of BCNU and the combination of procarbazine, CCNU, and vincristine administered after radiotherapy with hydroxyurea for malignant gliomas, 218
  The rationale and methodology for intra-arterial chemotherapy with BCNU as treatment for glioblastoma, 876
  Reduced systemic drug exposure by combining intra-arterial chemotherapy with hemoperfusion of regional venous drainage, 726
Beagle puppy model
  Beagle puppy model of perinatal cerebral infarction. Acute changes in cerebral blood flow and metabolism during hemorrhagic hypotension, 441
  Beagle puppy model of perinatal cerebral infarction. Acute changes in regional cerebral prostaglandins during hemorrhagic hypotension, 899
Biopsy procedure
  Transorbital intracavernous needle biopsy in painful ophthalmoplegia. Letters, 996
Blood-arterial wall barrier
  Barrier disruption in the major cerebral arteries following experimental subarachnoid hemorrhage, 433
Blood-cerebrospinal fluid barrier
  Source of fibrin/fibrinogen degradation products in the CSF after subarachnoid hemorrhage, 573
Blood flow
  Assessment of intracranial hemodynamics in carotid artery disease by transcranial Doppler ultrasound, 890
  Blood flow and autoregulation in rat pituitary gland, 116
  Brain blood volume and blood flow in patients with plateau waves, 556
  Reduction of blood flow in the adenohypophysis of rats by bromocriptine, 120
Bone cyst
  Aneurysmal bone cysts of the spine. Report of 17 cases, 685
Bonnet-Dechaume-Blanc syndrome
  Treatment of ophthalmofacial-hypothalamic arteriovenous malformation (Bonnet-Dechaume-Blanc syndrome). Case report, 794

Brain retractor pressure
The risk of cerebral damage during graded brain retractor pressure in the rat, 608

Brain specific gravity
Brain specific gravity and CT scan density measurements after human head injury, 64

Brain-stem compression
Changes in contralateral brain-stem auditory evoked responses to cerebellopontine angle compression in rats, 106
Vascular compression of the brain stem. Letter, 310

Brain tumor, *see also* specific tumors
Applications of monoclonal antibodies in the diagnosis and treatment of primary brain tumors, 2
Comparison of computerized tomographic and radionuclide methods in determining intracranial cystic tumor volumes, 740
Effect of hematoporphyrin derivative photoradiation therapy on survival in the rat 9L gliosarcoma brain-tumor model, 917
Establishment of a brain-tumor model in adult monkeys, 912
Management of acoustic neuromas, 1978–1983, 175
Reduced systemic drug exposure by combining intra-arterial chemotherapy with hemoperfusion of regional venous drainage, 726
Stem cell studies of human malignant brain tumors. Part 2: Proliferation kinetics of brain-tumor cells *in vitro* in early-passage cultures, 426
Thymidine kinase in brain-tumor cysts, 568

Brain volume
Acute brain edema in fatal head injury: analysis by dynamic CT scanning, 830

Bromocriptine
Pituitary apoplexy in an acromegalic patient during bromocriptine therapy. Case report, 288
Reduction of blood flow in the adenohypophysis of rats by bromocriptine, 120

Bypass procedure, *see* Anastomosis, Revascularization

Calcium channel blocker
Effects of verapamil and diltiazem on acute stroke in cats, 929
Increase in rat spinal cord blood flow with the calcium channel blocker, nimodipine, 250
Nimodipine levels in gerbil brain following parenteral drug administration, 589
Potentiation of vincristine effect in human and murine gliomas by calcium channel blockers or calmodulin inhibitors, 905

Calmodulin
Potentiation of vincristine effect in human and murine gliomas by calcium channel blockers or calmodulin inhibitors, 905
S-100 protein and calmodulin levels in cerebrospinal fluid after subarachnoid hemorrhage, 417

Carotid artery
Accessory nerve palsy following carotid endarterectomy. Report of two cases, 630
Assessment of intracranial hemodynamics in carotid artery disease by transcranial Doppler ultrasound, 890
Carotid artery end-to-end anastomosis in the rat using the argon laser, 771
Carotid endarterectomy. Review of 150 consecutive cases in two small community hospitals, 387
Effect of perioperative platelet inhibition on postcarotid endarterectomy mural thrombus formation. Results of a prospective randomized controlled trial using aspirin and dipyridamole in humans, 693

Caudate nucleus
Arteriovenous malformations of the lateral ventricle, 185

CCNU
Phase III comparison of BCNU and the combination of procarbazine, CCNU, and vincristine administered after radiotherapy with hydroxyurea for malignant gliomas, 218

Cell kinetics
Stem cell studies of human malignant brain tumors. Part 2: Proliferation kinetics of brain-tumor cells *in vitro* in early-passage cultures, 426

Cerebellopontine angle tumor
Preservation of hearing in patients undergoing excision of acoustic neuromas and other cerebellopontine angle tumors, 168

Cerebral blood flow
Beagle puppy model of perinatal cerebral infarction. Acute changes in cerebral blood flow and metabolism during hemorrhagic hypotension, 441
Cerebral effects of isovolemic hemodilution with a hypertonic saline solution, 944
Cerebrovascular effects of hypocapnia during adenosine-induced arterial hypotension, 937
Effect of mannitol on cerebral blood flow and cerebral perfusion pressure in human head injury, 43
Effects of verapamil and diltiazem on acute stroke in cats, 929
Recirculation model following MCA occlusion in rats. Cerebral blood flow, cerebrovascular permeability, and brain edema, 272

Cerebral cortex
Neuronal effects of experimentally induced hydrocephalus in newborn rats, 776

Cerebral infarction
Acute hydrocephalus after aneurysmal subarachnoid hemorrhage, 355

Index

Cerebral metabolite
Acute changes in regional cerebral metabolite values following experimental blunt head trauma, 88
Regional brain metabolite levels following mild experimental head injury in the cat, 617
Cerebral perfusion pressure
Effect of mannitol on cerebral blood flow and cerebral perfusion pressure in human head injury, 43
The risk of cerebral damage during graded brain retractor pressure in the rat, 608
Cerebrospinal fluid
Acute effect of glycerol on net cerebrospinal fluid production in dogs, 759
Biomechanical and hydrodynamic characterization of the hydrocephalic infant, 69
Choroid plexus as a barrier to immunoglobulin delivery into cerebrospinal fluid, 593
Effect of the skull and dura on neural axis pressure-volume relationships and CSF hydrodynamics, 76
Experimental feline hydrocephalus. The rolé of biomechanical changes in ventricular enlargement in cats, 82
The morphology of cerebrospinal fluid drainage pathways in human arachnoid granulations, 867
Pneumocephalus in patients with CSF shunts, 532
S-100 protein and calmodulin levels in cerebrospinal fluid after subarachnoid hemorrhage, 417
Cerebrospinal fluid lavage
Delayed CSF lavage for arteriographic and morphological vasospasm after experimental SAH, 949
Cerebrum
Juvenile pilocytic astrocytoma of the cerebrum in adults. A distinctive neoplasm with favorable prognosis, 382
Cervical interbody fusion
Anterior cervical interbody fusion with threaded cylindrical bone, 750
Cervical spine
Anterior cervical interbody fusion with threaded cylindrical bone, 750
Anterior osteophytectomy for cervical spondylotic myelopathy in developmentally narrow canal, 845
Cervical facetectomy and its effect on spine strength, 278
CT myelography with intramedullary enhancement in cervical spondylosis, 363
Evaluation of acute nonpenetrating cervical spinal cord injuries with CT metrizamide myelography, 510
History of the anterior cervical fusion technique. Letters, 817
Subdural meningioma of spinal cord. Case report, 800
Chemonucleolysis
Discography and vertebral venography before chemonucleolysis. Letter, 149
Efficacy and safety of chymopapain versus laminectomy. Letters, 991
Chemotherapy
ACNU-resistant mutants of 9L rat glioma cell line. Isolation and preliminary characterization of these subclones, 583
Chiasmatic optic glioma treated with chemotherapy. A preliminary report, 862
Combined-modality treatment of osteogenic sarcoma of the skull, 562
Phase III comparison of BCNU and the combination of procarbazine, CCNU, and vincristine administered after radiotherapy with hydroxyurea for malignant gliomas, 218
Potentiation of vincristine effect in human and murine gliomas by calcium channel blockers or calmodulin inhibitors, 905
The rationale and methodology for intra-arterial chemotherapy with BCNU as treatment for glioblastoma, 876
Rationale for preirradiation chemotherapy in treatment of malignant gliomas. Letter, 994
Reduced systemic drug exposure by combining intra-arterial chemotherapy with hemoperfusion of regional venous drainage, 726
Children
Astrocytomas of the spinal cord in children and adolescents, 669
Chiasmatic optic glioma treated with chemotherapy. A preliminary report, 862
Choriocarcinoma
Extraneural metastasis of choriocarcinomatous element in pineal germ-cell tumor. Case report, 463
Intracranial germ-cell tumors: natural history and pathogenesis, 155
Neoplastic cerebral aneurysm from metastatic gestational choriocarcinoma. Case report, 644
Choroid plexus
Choroid plexus as a barrier to immunoglobulin delivery into cerebrospinal fluid, 593
Chymopapain
Efficacy and safety of chymopapain versus laminectomy. Letters, 991
Circadian rhythm
The pineal gland: anatomy, physiology, and clinical significance, 321
Clip
Biocompatibility analysis of the Sundt-Kees booster clip and the Drake aneurysm clip. Technical note, 980
Cochlear nerve
Deterioration of auditory evoked potentials during cerebellopontine angle manipulations. An interpretation based on an experimental model in dogs, 598
Preservation of hearing in patients undergoing excision of acoustic neuromas and other cerebellopontine angle tumors, 168
Computerized tomography
Absent basal cisterns on computerized tomography. Letters, 310
Acute brain edema in fatal head injury: analysis by dynamic CT scanning, 830
Brain blood volume and blood flow in patients with plateau waves, 556
Cerebal gumma. Case report, 301
Comparison of computerized tomographic and radionuclide methods in determining intracranial cystic tumor volumes, 740
Multiple intracranial aneurysms: determining the site of rupture, 342
Timing of CT scanning after SAH. Letter, 817
Computerized tomography myelography
CT myelography with intramedullary enhancement in cervical spondylosis, 363
Computerized tomography subdurography
Unilateral subdural-peritoneal shunting for bilateral chronic subdural hematomas in infancy. Report of three cases, 134
Congenital disorder
The human tail: a benign stigma. Case report, 461
Trilateral retinoblastoma: ocular and pineal retinoblastomas, 367
Congress of Neurological Surgeons
Report of the Research Subcommittee of the Joint Committee on Education of the American Association of Neurological Surgeons and the Congress of Neurological Surgeons. Letter, 144
Cranial nerve
Accessory nerve palsy following carotid endarterectomy. Report of two cases, 630
Craniocervical dislocation
Odontoid upward migration in rheumatoid arthritis. An analysis of 45 patients with "cranial settling," 500
Craniopharyngioma
Transsphenoidal surgery following unsuccessful prior therapy. An assessment of benefits and risks in 158 patients, 823
Curette
Bayonette curettes for anterior cervical spine procedures. Tech-

nical note, 141
Cushing oration
From space exploration to utilization of the space perspective, environment, and materials. The 1985 Harvey Cushing oration, 317
Cyst
Infratentorial arachnoid cysts, 210
Spinal intramedullary pseudocyst. Case report, 453
Cystic brain tumor
Comparison of computerized tomographic and radionuclide methods in determining intracranial cystic tumor volumes, 740
Cystic cavernous angiomas of the posterior fossa. Report of three cases, 797
Thymidine kinase in brain-tumor cysts, 568
Cysticercosis
Intrasellar cysticercosis. Case report, 975

Dandy-Walker syndrome
Infratentorial arachnoid cysts, 210
Dendrite
Neuronal effects of experimentally induced hydrocephalus in newborn rats, 776
Diabetes insipidus
Fluid balance and secretion of antidiuretic hormone following transsphenoidal pituitary surgery. A preliminary series, 404
Unusual delayed onset of diabetes insipidus following closed head trauma. Case report, 456
Diltiazem
Effects of verapamil and diltiazem on acute stroke in cats, 929
Dipyridamole
Dipyridamole and postoperative ischemic deficits in aneurysmal subarachnoid hemorrhage, 699
Effect of perioperative platelet inhibition on postcarotid endarterectomy mural thrombus formation. Results of a prospective randomized controlled trial using aspirin and dipyridamole in humans, 693
Discectomy
Bayonette curettes for anterior cervical spine procedures. Technical note, 141
Discography
Discography and vertebral venography before chemonucleolysis. Letter, 149
Dissecting aneurysm
CT demonstration of spontaneous internal carotid artery dissection. Case report, 792
Dorsal root entry zone
DREZ lesions using lasers. Letter, 150
Drug delivery
Applications of monoclonal antibodies in the diagnosis and treatment of primary brain tumors, 2
Choroid plexus as a barrier to immunoglobulin delivery into cerebrospinal fluid, 593
Nimodipine levels in gerbil brain following parenteral drug administration, 589
The rationale and methodology for intra-arterial chemotherapy with BCNU as treatment for glioblastoma, 876
Reduced systemic drug exposure by combining intra-arterial chemotherapy with hemoperfusion of regional venous drainage, 726
Thymidine kinase in brain-tumor cysts, 568
Use of intrathecal morphine for postoperative pain relief following lumbar spine surgery, 413
Drug resistance
ACNU-resistant mutants of 9L rat glioma cell line. Isolation and preliminary characterization of these subclones, 583
Dural substitute
Vicryl (polyglactin 910) mesh as a dural substitute, 448

Early surgery
Cognitive impairment after early aneurysm surgery. Letter, 655
Ectopic cell
Suprasellar peri-infundibular ectopic adenohypophysis in fetal and adult brains, 113
Edema
Acute brain edema in fatal head injury: analysis by dynamic CT scanning, 830
Acute changes in regional cerebral metabolite values following experimental blunt head trauma, 88
Recirculation model following MCA occlusion in rats. Cerebral blood flow, cerebrovascular permeability, and brain edema, 272
Editorial comment
Editorial comment, 1
Eicosanoid
Eicosanoids in the central nervous system, 659
Electrical stimulation
Brain targets in Parkinson's disease surgery. Letter, 478
Parabrachial modulation of pain and blood pressure. Letters, 478
Peripheral nerve stimulation suppression of C-fiber evoked flexion reflex in rats. Part 1: Parameters of continuous stimulation, 612
Sensory and motor responses to deep brain stimulation. Correlation with anatomical structures, 224
Embolization
Morphological studies of human arteriovenous malformations. Effects of isobutyl 2-cyanoacrylate embolization, 421
Treatment of ophthalmofacial-hypothalamic arteriovenous malformation (Bonnet-Dechaume-Blanc syndrome). Case report, 794
Endarterectomy
Accessory nerve palsy following carotid endarterectomy. Report of two cases, 630
Carotid endarterectomy. Review of 150 consecutive cases in two small community hospitals, 387
Effect of perioperative platelet inhibition on postcarotid endarterectomy mural thrombus formation. Results of a prospective randomized controlled trial using aspirin and dipyridamole in humans, 693
Endarteritis
Successful management of an intracranial arteriovenous malformation by conventional irradiation, 193
Ependymoma
Radical resection of intramedullary spinal cord tumors in adults. Recent experience in 29 patients, 492
Epidemiology
Epidemiological study of gliomas. Letter, 817
Survival times and case fatality rates of brain-injured persons, 537
Errata
Neurosurgical management of low-grade astrocytoma: Erratum. Letter, 819
Thermography in assessing peripheral nerve injury: Correction. Letter, 654
Estrogen
Spontaneous reduction in size of prolactin-producing adenoma after delivery. Case report, 973
Evoked potentials
Cavitron ultrasonic surgical aspirator and visual evoked potential monitoring for chiasmal gliomas in children. Technical note, 138
Changes in contralateral brain-stem auditory evoked responses to cerebellopontine angle compression in rats, 106
Concussive head injury producing suppression of sensory transmission within the lumbar spinal cord in cats, 97
Deterioration of auditory evoked potentials during cerebellopontine angle manipulations. An interpretation based on an experimental model in dogs, 598
Postoperative paraplegia with preserved intraoperative soma-

tosensory evoked potentials. Case report, 296
Somatosensory evoked potentials evaluated in normal subjects and spinal cord-injured patients, 544
Extradural pressure monitoring
Behavior of an extradural pressure monitor in clinical use. Comparison of extradural with intraventricular pressure in patients with acute and chronically raised intracranial pressure, 745

Facetectomy
Cervical facetectomy and its effect on spine strength, 278
Factor XI deficiency
Spontaneous hematomyelia secondary to Factor XI deficiency. Case report, 293
Fat graft
Symptomatic root compression by a free fat transplant after hemilaminectomy. Case report, 633
Fibrin/fibrinogen degradation products
Source of fibrin/fibrinogen degradation products in the CSF after subarachnoid hemorrhage, 573
Flaccid-cuff catheter
Intracranial pressure monitoring by flaccid-cuff catheter in an animal model, 242
Fluid-percussion injury
Regional brain metabolite levels following mild experimental head injury in the cat, 617
Foramen ovale
Diagnosis of subdural hemorrhage *in utero*. Case report, 977
Frontal sinus
Frontal sinus approach to the orbit. Technical note, 811

Gallamine
Effects of potassium channel-blocking agents on spontaneous discharges from neuromas in rats, 246
Germ-cell tumor
Extraneural metastasis of choriocarcinomatous element in pineal germ-cell tumor. Case report, 463
Immunohistochemical study of placental alkaline phosphatase in primary intracranial germ-cell tumors, 733
Intracranial germ-cell tumors: natural history and pathogenesis, 155
Germinoma
Immunohistochemical study of placental alkaline phosphatase in primary intracranial germ-cell tumors, 733
Intracranial germ-cell tumors: natural history and pathogenesis, 155
Glial fibrillary acidic protein
Establishment of a brain-tumor model in adult monkeys, 912
Pleomorphic xanthoastrocytoma with 18-year survival. Case report, 808
Glioblastoma
Immunobiology of primary intracranial tumors. Part 10: Therapeutic efficacy of interferon in the treatment of recurrent gliomas, 719
The rationale and methodology for intra-arterial chemotherapy with BCNU as treatment for glioblastoma, 876
Glioblastoma multiforme
Phase III comparison of BCNU and the combination of procarbazine, CCNU, and vincristine administered after radiotherapy with hydroxyurea for malignant gliomas, 218
Glioma
ACNU-resistant mutants of 9L rat glioma cell line. Isolation and preliminary characterization of these subclones, 583
Chiasmatic optic glioma treated with chemotherapy. A preliminary report, 862
Diffuse form of primary leptomeningeal gliomatosis. Case report, 283
Epidemiological study of gliomas. Letter, 817
Immunobiology of primary intracranial tumors. Part 10: Therapeutic efficacy of interferon in the treatment of recurrent gliomas, 719
Immunoregulatory role in gamma interferon production by a T cell growth factor-dependent experimental malignant glioma-specific cytotoxic T lymphocyte clone, 763
Phase III comparison of BCNU and the combination of procarbazine, CCNU, and vincristine administered after radiotherapy with hydroxyurea for malignant gliomas, 218
Potentiation of vincristine effect in human and murine gliomas by calcium channel blockers or calmodulin inhibitors, 905
Rationale for preirradiation chemotherapy in treatment of malignant gliomas. Letter, 994
Stem cell studies of human malignant brain tumors. Part 2: Proliferation kinetics of brain-tumor cells *in vitro* in early-passage cultures, 426
Glioma polyposis
Turcot's syndrome (glioma polyposis). Case report, 804
Glycerol
Acute effect of glycerol on net cerebrospinal fluid production in dogs, 759
Glycerol neurolysis: neurophysiological effects of topical glycerol application on rat saphenous nerve, 784
Grading system
Survival times and case fatality rates of brain-injured persons, 537
Granuloma
Presentation of central nervous system sarcoidosis as intracranial tumors, 851
Growth hormone
The pathogenesis of acromegaly. Clinical and immunocytochemical analysis in 75 patients, 35
Gumma
Cerebal gumma. Case report, 301

Head injury
Acute brain edema in fatal head injury: analysis by dynamic CT scanning, 830
Acute changes in regional cerebral metabolite values following experimental blunt head trauma, 88
Brain specific gravity and CT scan density measurements after human head injury, 64
Concussive head injury producing suppression of sensory transmission within the lumbar spinal cord in cats, 97
Delayed onset of traumatic extradural hematoma, 30
Effect of mannitol on cerebral blood flow and cerebral perfusion pressure in human head injury, 43
Failure of prophylactic barbiturate coma. Letter, 310
Safe use of PEEP in patients with severe head injury, 552
Steroid administration and nitrogen excretion in the head-injured patient, 714
Survival times and case fatality rates of brain-injured persons, 537
Unusual delayed onset of diabetes insipidus following closed head trauma. Case report, 456
Hematoma
Delayed onset of traumatic extradural hematoma, 30
Hematomyelia
Spontaneous hematomyelia secondary to Factor XI deficiency. Case report, 293
Hematoporphyrin derivative
Effect of hematoporphyrin derivative photoradiation therapy

on survival in the rat 9L gliosarcoma brain-tumor model, 917
Hemifacial spasm
Loss of auditory function in microvascular decompression for hemifacial spasm. Results in 143 consecutive cases, 17
Hemodilution
Cerebral effects of isovolemic hemodilution with a hypertonic saline solution, 944
Hemoperfusion
Reduced systemic drug exposure by combining intra-arterial chemotherapy with hemoperfusion of regional venous drainage, 726
Heparin
Evaluation of the risks of anticoagulation therapy following experimental craniotomy in the rat, 959
Hippocampus
Regional brain metabolite levels following mild experimental head injury in the cat, 617
Hydatidiform mole
Neoplastic cerebral aneurysm from metastatic gestational choriocarcinoma. Case report, 644
Hydrocephalus
Acute hydrocephalus after aneurysmal subarachnoid hemorrhage, 355
Behavior of an extradural pressure monitor in clinical use. Comparison of extradural with intraventricular pressure in patients with acute and chronically raised intracranial pressure, 745
Biomechanical and hydrodynamic characterization of the hydrocephalic infant, 69
Effect of the skull and dura on neural axis pressure-volume relationships and CSF hydrodynamics, 76
Experimental feline hydrocephalus. The role of biomechanical changes in ventricular enlargement in cats, 82
Human neonatal hydrocephalus. An electron microscopic study of the periventricular tissue, 56
Infratentorial arachnoid cysts, 210
Neuronal effects of experimentally induced hydrocephalus in newborn rats, 776
Pneumocephalus in patients with CSF shunts, 532
Surgical treatment for fungal infections in the central nervous system, 371
Hyperplasia
Pituitary enlargement mimicking pituitary tumor, 39
Hypertension, *see also* Intracranial pressure
Post-decompression optic neuropathy, 196
Hypocapnia
Cerebrovascular effects of hypocapnia during adenosine-induced arterial hypotension, 937
Hyponatremia
Acute hydrocephalus after aneurysmal subarachnoid hemorrhage, 355
Fluid balance and secretion of antidiuretic hormone following transsphenoidal pituitary surgery. A preliminary series, 404
Hypotension
Beagle puppy model of perinatal cerebral infarction. Acute changes in cerebral blood flow and metabolism during hemorrhagic hypotension, 441
Cerebrovascular effects of hypocapnia during adenosine-induced arterial hypotension, 937
Hypothyroidism
Pituitary enlargement mimicking pituitary tumor, 39

Immunocytochemistry
The pathogenesis of acromegaly. Clinical and immunocytochemical analysis in 75 patients, 35
Immunoglobulin
Choroid plexus as a barrier to immunoglobulin delivery into cerebrospinal fluid, 593
Immunohistochemistry
Choroid plexus as a barrier to immunoglobulin delivery into cerebrospinal fluid, 593
Immunohistochemical investigation of cerebral ischemia during recirculation, 922
Immunohistochemical study of placental alkaline phosphatase in primary intracranial germ-cell tumors, 733
Immunology
Applications of monoclonal antibodies in the diagnosis and treatment of primary brain tumors, 2
Immunoregulatory role in gamma interferon production by a T cell growth factor-dependent experimental malignant glioma-specific cytotoxic T lymphocyte clone, 763
Infant
Fourth ventriculoceles with extracranial extension. Letters, 479
Unilateral subdural-peritoneal shunting for bilateral chronic subdural hematomas in infancy. Report of three cases, 134
Infarction
Beagle puppy model of perinatal cerebral infarction. Acute changes in regional cerebral prostaglandins during hemorrhagic hypotension, 899
Infection
Actinomycosis of the brain. Case report, 131
Electron microscopic diagnosis of cerebral toxoplasmosis. Case report, 470
Intrasellar cysticercosis. Case report, 975
Surgical treatment for fungal infections in the central nervous system, 371
Infundibulum
Suprasellar peri-infundibular ectopic adenohypophysis in fetal and adult brains, 113
Injury Severity Score
Survival times and case fatality rates of brain-injured persons, 537
Instrumentation
Bayonette curettes for anterior cervical spine procedures. Technical note, 141
Biocompatibility analysis of the Sundt-Kees booster clip and the Drake aneurysm clip. Technical note, 980
A guide for ventricular catheter placement. Technical note, 985
Intracranial pressure monitoring by flaccid-cuff catheter in an animal model, 242
A self-retaining multipore suction tube. Technical note, 304
Interferon
Immunobiology of primary intracranial tumors. Part 10: Therapeutic efficacy of interferon in the treatment of recurrent gliomas, 719
Immunoregulatory role in gamma interferon production by a T cell growth factor-dependent experimental malignant glioma-specific cytotoxic T lymphocyte clone, 763
Internal auditory artery
Deterioration of auditory evoked potentials during cerebellopontine angle manipulations. An interpretation based on an experimental model in dogs, 598
Internal carotid artery
CT demonstration of spontaneous internal carotid artery dissection. Case report, 792
Intervertebral disc
Symptomatic root compression by a free fat transplant after hemilaminectomy. Case report, 633
Intracavitary radiation
Comparison of computerized tomographic and radionuclide methods in determining intracranial cystic tumor volumes, 740
Intracerebral hemorrhage
Evaluation of the risks of anticoagulation therapy following experimental craniotomy in the rat, 959
Intracerebral hemorrhage due to cerebral amyloid angiopathy.

Index

Case report, 965
Intracranial pressure
Behavior of an extradural pressure monitor in clinical use. Comparison of extradural with intraventricular pressure in patients with acute and chronically raised intracranial pressure, 745
Biomechanical and hydrodynamic characterization of the hydrocephalic infant, 69
Brain blood volume and blood flow in patients with plateau waves, 556
Effect of mannitol on cerebral blood flow and cerebral perfusion pressure in human head injury, 43
Effect of the skull and dura on neural axis pressure-volume relationships and CSF hydrodynamics, 76
Experimental feline hydrocephalus. The role of biomechanical changes in ventricular enlargement in cats, 82
Incidence of multiple intracranial aneurysms. Influence of arterial hypertension and gender, 49
Pressure-volume conditions in patients with subarachnoid and/or intraventricular hemorrhage, 398
Safe use of PEEP in patients with severe head injury, 552
Intracranial pressure monitoring
Clinical evaluation of two methods of subdural pressure monitoring, 578
A guide for ventricular catheter placement. Technical note, 985
Intracranial pressure monitoring by flaccid-cuff catheter in an animal model, 242
Intramedullary disorder
CT myelography with intramedullary enhancement in cervical spondylosis, 363
Spinal intramedullary pseudocyst. Case report, 453
Spontaneous hematomyelia secondary to Factor XI deficiency. Case report, 293
Intraventricular hemorrhage
Arteriovenous malformations of the lateral ventricle, 185
Intraventricular hemorrhage in a term neonate secondary to a third ventricular AVM. Case report, 640
Limitations of premature rabbit model of IVH. Letters, 816
Pressure-volume conditions in patients with subarachnoid and/or intraventricular hemorrhage, 398
Intraventricular pressure
Behavior of an extradural pressure monitor in clinical use. Comparison of extradural with intraventricular pressure in patients with acute and chronically raised intracranial pressure, 745
Clinical evaluation of two methods of subdural pressure monitoring, 578
Ischemia
Acute cerebral revascularization, 200
Dipyridamole and postoperative ischemic deficits in aneurysmal subarachnoid hemorrhage, 699
Immunohistochemical investigation of cerebral ischemia during recirculation, 922
Results of extracranial-intracranial arterial bypass for bilateral carotid occlusion, 521
The risk of cerebral damage during graded brain retractor pressure in the rat, 608
Use of balloon occlusion and substances to protect ischemic brain during resection of posterior fossa AVM. Case report, 626
Isobutyl 2-cyanoacrylate
Morphological studies of human arteriovenous malformations. Effects of isobutyl 2-cyanoacrylate embolization, 421

Lactate
Acute changes in regional cerebral metabolite values following experimental blunt head trauma, 88
Regional brain metabolite levels following mild experimental head injury in the cat, 617
Laminectomy
Astrocytomas of the spinal cord in children and adolescents, 669
Efficacy and safety of chymopapain versus laminectomy. Letters, 991
Symptomatic root compression by a free fat transplant after hemilaminectomy. Case report, 633
Laser
Carotid artery end-to-end anastomosis in the rat using the argon laser, 771
DREZ lesions using lasers. Letter, 150
Effect of hematoporphyrin derivative photoradiation therapy on survival in the rat 9L gliosarcoma brain-tumor model, 917
Mucocele of the pterygoid recess treated by laser surgery. Case report, 970
Lateral spinal artery
The lateral spinal artery of the upper cervical spinal cord. Anatomy, normal variations, and angiographic aspects, 235
Lateral ventricle
Arteriovenous malformations of the lateral ventricle, 185
Human neonatal hydrocephalus. An electron microscopic study of the periventricular tissue, 56
Lenticulostriate artery
Perforating branches of the middle cerebral artery. Microsurgical anatomy of their extracerebral segments, 266
Leptomeningeal gliomatosis
Diffuse form of primary leptomeningeal gliomatosis. Case report, 283
Lumbar spine
Intact arch spondylolisthesis. A review of 50 cases and description of surgical treatment, 840
Use of intrathecal morphine for postoperative pain relief following lumbar spine surgery, 413

Mannitol
Effect of mannitol on cerebral blood flow and cerebral perfusion pressure in human head injury, 43
Melatonin
The pineal gland: anatomy, physiology, and clinical significance, 321
Meningioma
Fibrosis surrounding a silicone implant simulating recurrent orbital meningioma. Case report, 467
Subdural meningioma of spinal cord. Case report, 800
Meningitis
Intrasellar cysticercosis. Case report, 975
Surgical treatment for fungal infections in the central nervous system, 371
Metallurgic study
Biocompatibility analysis of the Sundt-Kees booster clip and the Drake aneurysm clip. Technical note, 980
Metastasis
Extraneural metastasis of choriocarcinomatous element in pineal germ-cell tumor. Case report, 463
Skull metastasis of thyroid carcinoma. Study of 12 cases, 526
Methylprednisolone
Methylprednisolone and neurological function 1 year after spinal cord injury. Results of the National Acute Spinal Cord Injury Study, 704
Metrizamide
Intrathecal phenol and glycerin in metrizamide for treatment of intractable spasms in paraplegia. Case report, 125
Unilateral subdural-peritoneal shunting for bilateral chronic subdural hematomas in infancy. Report of three cases, 134

Microvascular decompression
Loss of auditory function in microvascular decompression for hemifacial spasm. Results in 143 consecutive cases, 17
Middle cerebral artery
Cerebral revascularization to a main limb of the middle cerebral artery in the Sylvian fissure. An alternative approach to conventional anastomosis, 21
Perforating branches of the middle cerebral artery. Microsurgical anatomy of their extracerebral segments, 266
Recirculation model following MCA occlusion in rats. Cerebral blood flow, cerebrovascular permeability, and brain edema, 272
Monoclonal antibody
Applications of monoclonal antibodies in the diagnosis and treatment of primary brain tumors, 2
Morphine
Use of intrathecal morphine for postoperative pain relief following lumbar spine surgery, 413
Mucocele
Mucocele of the pterygoid recess treated by laser surgery. Case report, 970
Multiple aneurysms
Incidence of multiple intracranial aneurysms. Influence of arterial hypertension and gender, 49
Multiple intracranial aneurysms: determining the site of rupture, 342
Mural thrombus
Effect of perioperative platelet inhibition on postcarotid endarterectomy mural thrombus formation. Results of a prospective randomized controlled trial using aspirin and dipyridamole in humans, 693
Myelography
Evaluation of acute nonpenetrating cervical spinal cord injuries with CT metrizamide myelography, 510
Neuron
Neuronal effects of experimentally induced hydrocephalus in newborn rats, 776
Neurosurgical education
Report of the Research Subcommittee of the Joint Committee on Education of the American Association of Neurological Surgeons and the Congress of Neurological Surgeons. Letter, 144
Neurosurgical history
Early transsphenoidal pituitary surgery. Letter, 654
The need to trace our roots in difficult times. The 1985 AANS presidential address, 485
Neurovascular compression
Spasmodic torticollis due to neurovascular compression of the 11th nerve. Case report, 789
Nicardipine
Potentiation of vincristine effect in human and murine gliomas by calcium channel blockers or calmodulin inhibitors, 905
Nimodipine
Increase in rat spinal cord blood flow with the calcium channel blocker, nimodipine, 250
Nimodipine levels in gerbil brain following parenteral drug administration, 589
Nitrogen excretion
Steroid administration and nitrogen excretion in the head-injured patient, 714
Nitrosourea
ACNU-resistant mutants of 9L rat glioma cell line. Isolation and preliminary characterization of these subclones, 583
Nocardia
Actinomycosis of the brain. Case report, 131
Nutrition
Steroid administration and nitrogen excretion in the head-injured patient, 714
Naloxone
A Phase I trial of naloxone treatment in acute spinal cord injury, 390
Neonate
Beagle puppy model of perinatal cerebral infarction. Acute changes in regional cerebral prostaglandins during hemorrhagic hypotension, 899
Human neonatal hydrocephalus. An electron microscopic study of the periventricular tissue, 56
Intraventricular hemorrhage in a term neonate secondary to a third ventricular AVM. Case report, 640
Nerve injury
Accessory nerve palsy following carotid endarterectomy. Report of two cases, 630
Deterioration of auditory evoked potentials during cerebellopontine angle manipulations. An interpretation based on an experimental model in dogs, 598
Neuroectodermal tumor
Applications of monoclonal antibodies in the diagnosis and treatment of primary brain tumors, 2
Neurolysis
Glycerol neurolysis: neurophysiological effects of topical glycerol application on rat saphenous nerve, 784
Neuroma
Centrocentral anastomosis in the prevention and treatment of painful terminal neuroma. An experimental study in the rat, 754
Effects of potassium channel-blocking agents on spontaneous discharges from neuromas in rats, 246
Glycerol neurolysis: neurophysiological effects of topical glycerol application on rat saphenous nerve, 784
Obituaries
Barnes Woodhall, M.D., 1905–1985, 483
Harry Wilkins, M.D., 1904–1985, 315
Occipital artery
Occipital artery to extradural vertebral artery bypass procedure. Case report, 622
Ocular retinoblastoma
Trilateral retinoblastoma: ocular and pineal retinoblastomas, 367
Oligodendroglioma
Immunobiology of primary intracranial tumors. Part 10: Therapeutic efficacy of interferon in the treatment of recurrent gliomas, 719
Oligodendroglioma: incidence and biological behavior in a defined population, 881
Operative approach
Frontal sinus approach to the orbit. Technical note, 811
Transpetrosal approach for aneurysms of the lower basilar artery, 857
Ophthalmoplegia
Transorbital intracavernous needle biopsy in painful ophthalmoplegia. Letters, 996
Optic glioma
Cavitron ultrasonic surgical aspirator and visual evoked potential monitoring for chiasmal gliomas in children. Technical note, 138
Optic nerve
Chiasmatic optic glioma treated with chemotherapy. A preliminary report, 862
Post-decompression optic neuropathy, 196

Index

Orbital tumor
Frontal sinus approach to the orbit. Technical note, 811
Osmolality
Acute effect of glycerol on net cerebrospinal fluid production in dogs, 759
Osteogenic sarcoma
Combined-modality treatment of osteogenic sarcoma of the skull, 562
Osteophytectomy
Anterior osteophytectomy for cervical spondylotic myelopathy in developmentally narrow canal, 845

Pain
Effects of potassium channel-blocking agents on spontaneous discharges from neuromas in rats, 246
Glycerol neurolysis: neurophysiological effects of topical glycerol application on rat saphenous nerve, 784
Parabrachial modulation of pain and blood pressure. Letters, 478
Peripheral nerve stimulation suppression of C-fiber evoked flexion reflex in rats. Part 1: Parameters of continuous stimulation, 612
Sensory and motor responses to deep brain stimulation. Correlation with anatomical structures, 224
Use of intrathecal morphine for postoperative pain relief following lumbar spine surgery, 413
Papilledema
Post-decompression optic neuropathy, 196
Paraplegia
Intrathecal phenol and glycerin in metrizamide for treatment of intractable spasms in paraplegia. Case report, 125
Parkinson's disease
Brain targets in Parkinson's disease surgery. Letter, 478
Perforating artery
Perforating branches of the middle cerebral artery. Microsurgical anatomy of their extracerebral segments, 266
Peripheral nerve
Centrocentral anastomosis in the prevention and treatment of painful terminal neuroma. An experimental study in the rat, 754
Effects of potassium channel-blocking agents on spontaneous discharges from neuromas in rats, 246
Glycerol neurolysis: neurophysiological effects of topical glycerol application on rat saphenous nerve, 784
Peripheral nerve stimulation suppression of C-fiber evoked flexion reflex in rats. Part 1: Parameters of continuous stimulation, 612
Thermography in assessing peripheral nerve injury: Correction. Letter, 654
Phenol
Intrathecal phenol and glycerin in metrizamide for treatment of intractable spasms in paraplegia. Case report, 125
Phosphocreatine
Regional brain metabolite levels following mild experimental head injury in the cat, 617
Photoradiation therapy
Effect of hematoporphyrin derivative photoradiation therapy on survival in the rat 9L gliosarcoma brain-tumor model, 917
Photoreceptor tissue
Trilateral retinoblastoma: ocular and pineal retinoblastomas, 367
Pilocytic astrocytoma
Juvenile pilocytic astrocytoma of the cerebrum in adults. A distinctive neoplasm with favorable prognosis, 382
Pineal gland
The pineal gland: anatomy, physiology, and clinical significance, 321
Pineal tumor
Extraneural metastasis of choriocarcinomatous element in pineal germ-cell tumor. Case report, 463
Trilateral retinoblastoma: ocular and pineal retinoblastomas, 367
Pituitary adenoma
The pathogenesis of acromegaly. Clinical and immunocytochemical analysis in 75 patients, 35
Spontaneous reduction in size of prolactin-producing adenoma after delivery. Case report, 973
Suprasellar peri-infundibular ectopic adenohypophysis in fetal and adult brains, 113
Transsphenoidal surgery following unsuccessful prior therapy. An assessment of benefits and risks in 158 patients, 823
Pituitary apoplexy
Pituitary apoplexy in an acromegalic patient during bromocriptine therapy. Case report, 288
Pituitary gland
Blood flow and autoregulation in rat pituitary gland, 116
Pituitary enlargement mimicking pituitary tumor, 39
Pituitary tumor
Fluid balance and secretion of antidiuretic hormone following transsphenoidal pituitary surgery. A preliminary series, 404
Pituitary apoplexy in an acromegalic patient during bromocriptine therapy. Case report, 288
Placental alkaline phosphatase
Immunohistochemical study of placental alkaline phosphatase in primary intracranial germ-cell tumors, 733
Plateau waves
Brain blood volume and blood flow in patients with plateau waves, 556
Pneumocephalus
Pneumocephalus in patients with CSF shunts, 532
Polyposis
Turcot's syndrome (glioma polyposis). Case report, 804
Posterior fossa
Cystic cavernous angiomas of the posterior fossa. Report of three cases, 797
Infratentorial arachnoid cysts, 210
Use of balloon occlusion and substances to protect ischemic brain during resection of posterior fossa AVM. Case report, 626
Posterior inferior cerebellar artery
Spasmodic torticollis due to neurovascular compression of the 11th nerve. Case report, 789
Potassium channel blocker
Effects of potassium channel-blocking agents on spontaneous discharges from neuromas in rats, 246
Pregnancy
Ventriculoperitoneal shunt malfunction during pregnancy. Case report, 459
Pressure-volume index
Biomechanical and hydrodynamic characterization of the hydrocephalic infant, 69
Effect of the skull and dura on neural axis pressure-volume relationships and CSF hydrodynamics, 76
Experimental feline hydrocephalus. The role of biomechanical changes in ventricular enlargement in cats, 82
Pressure-volume conditions in patients with subarachnoid and/or intraventricular hemorrhage, 398
Procarbazine
Phase III comparison of BCNU and the combination of procarbazine, CCNU, and vincristine administered after radiotherapy with hydroxyurea for malignant gliomas, 218
Prognosis
Oligodendroglioma: incidence and biological behavior in a defined population, 881
Subarachnoid hemorrhage of unknown origin: prognosis and

prognostic factors, 349
Prolactin
Spontaneous reduction in size of prolactin-producing adenoma after delivery. Case report, 973
Prostacyclin
Eicosanoids in the central nervous system, 659
Prostaglandin
Beagle puppy model of perinatal cerebral infarction. Acute changes in regional cerebral prostaglandins during hemorrhagic hypotension, 899
Eicosanoids in the central nervous system, 659
Pterygoid recess
Mucocele of the pterygoid recess treated by laser surgery. Case report, 970
Pyramidal neuron
Neuronal effects of experimentally induced hydrocephalus in newborn rats, 776

Rabbit model
Limitations of premature rabbit model of IVH. Letters, 816
Radiation therapy
Chiasmatic optic glioma treated with chemotherapy. A preliminary report, 862
Phase III comparison of BCNU and the combination of procarbazine, CCNU, and vincristine administered after radiotherapy with hydroxyurea for malignant gliomas, 218
Rationale for preirradiation chemotherapy in treatment of malignant gliomas. Letter, 994
Successful management of an intracranial arteriovenous malformation by conventional irradiation, 193
Radionuclide
Applications of monoclonal antibodies in the diagnosis and treatment of primary brain tumors, 2
Comparison of computerized tomographic and radionuclide methods in determining intracranial cystic tumor volumes, 740
Retinoblastoma
Trilateral retinoblastoma: ocular and pineal retinoblastomas, 367
Revascularization, *see also* Anastomosis
Acute cerebral revascularization, 200
Cerebral revascularization to a main limb of the middle cerebral artery in the Sylvian fissure. An alternative approach to conventional anastomosis, 21
Rheumatoid arthritis
Odontoid upward migration in rheumatoid arthritis. An analysis of 45 patients with "cranial settling," 500
Rhinorrhea
Transsphenoidal surgery following unsuccessful prior therapy. An assessment of benefits and risks in 158 patients, 823
Rous sarcoma virus
Establishment of a brain-tumor model in adult monkeys, 912

S-100 protein
S-100 protein and calmodulin levels in cerebrospinal fluid after subarachnoid hemorrhage, 417
Saphenous vein graft
Cerebral revascularization to a main limb of the middle cerebral artery in the Sylvian fissure. An alternative approach to conventional anastomosis, 21
Sarcoidosis
Presentation of central nervous system sarcoidosis as intracranial tumors, 851
Sarcoma
Combined-modality treatment of osteogenic sarcoma of the skull, 562
Pleomorphic xanthoastrocytoma with 18-year survival. Case report, 808
Sciatic nerve
Centrocentral anastomosis in the prevention and treatment of painful terminal neuroma. An experimental study in the rat, 754
Scoliosis
Postoperative paraplegia with preserved intraoperative somatosensory evoked potentials. Case report, 296
Sella turcica
Intrasellar cysticercosis. Case report, 975
Sensory transmission
Concussive head injury producing suppression of sensory transmission within the lumbar spinal cord in cats, 97
Shunt
Anti-siphon shunt device: technical details. Letter, 819
Pneumocephalus in patients with CSF shunts, 532
Unilateral subdural-peritoneal shunting for bilateral chronic subdural hematomas in infancy. Report of three cases, 134
Ventriculoperitoneal shunt malfunction during pregnancy. Case report, 459
Skull tumor
Combined-modality treatment of osteogenic sarcoma of the skull, 562
Solar system
From space exploration to utilization of the space perspective, environment, and materials. The 1985 Harvey Cushing oration, 317
Space exploration
From space exploration to utilization of the space perspective, environment, and materials. The 1985 Harvey Cushing oration, 317
Spasticity
Intrathecal phenol and glycerin in metrizamide for treatment of intractable spasms in paraplegia. Case report, 125
Spinal accessory nerve
Spasmodic torticollis due to neurovascular compression of the 11th nerve. Case report, 789
Spinal cord
Spinal intramedullary pseudocyst. Case report, 453
Spinal cord artery
The lateral spinal artery of the upper cervical spinal cord. Anatomy, normal variations, and angiographic aspects, 235
Spinal cord blood flow
Circulatory disturbance of the spinal cord with epidural neoplasm in rats, 260
Increase in rat spinal cord blood flow with the calcium channel blocker, nimodipine, 250
Spinal cord compression
Circulatory disturbance of the spinal cord with epidural neoplasm in rats, 260
CT myelography with intramedullary enhancement in cervical spondylosis, 363
Intact arch spondylolisthesis. A review of 50 cases and description of surgical treatment, 840
Odontoid upward migration in rheumatoid arthritis. An analysis of 45 patients with "cranial settling," 500
Treatment of neoplastic epidural cord compression by vertebral body resection and stabilization, 676
Spinal cord injury
Evaluation of acute nonpenetrating cervical spinal cord injuries with CT metrizamide myelography, 510
Methylprednisolone and neurological function 1 year after spinal cord injury. Results of the National Acute Spinal Cord Injury Study, 704

Index

A Phase I trial of naloxone treatment in acute spinal cord injury, 390
Somatosensory evoked potentials evaluated in normal subjects and spinal cord-injured patients, 544
Spinal fusion
Anterior cervical interbody fusion with threaded cylindrical bone, 750
Anterior osteophytectomy for cervical spondylotic myelopathy in developmentally narrow canal, 845
Spinal hematoma
Chronic spinal subdural hematomas. Report of two cases, 636
Spinal tumor
Astrocytomas of the spinal cord in children and adolescents, 669
Circulatory disturbance of the spinal cord with epidural neoplasm in rats, 260
Radical resection of intramedullary spinal cord tumors in adults. Recent experience in 29 patients, 492
Subdural meningioma of spinal cord. Case report, 800
Spine
Aneurysmal bone cysts of the spine. Report of 17 cases, 685
Treatment of neoplastic epidural cord compression by vertebral body resection and stabilization, 676
Spondylolisthesis
Intact arch spondylolisthesis. A review of 50 cases and description of surgical treatment, 840
Spondylosis
Anterior osteophytectomy for cervical spondylotic myelopathy in developmentally narrow canal, 845
CT myelography with intramedullary enhancement in cervical spondylosis, 363
Stem cell
Stem cell studies of human malignant brain tumors. Part 2: Proliferation kinetics of brain-tumor cells *in vitro* in early-passage cultures, 426
Steroid therapy
Methylprednisolone and neurological function 1 year after spinal cord injury. Results of the National Acute Spinal Cord Injury Study, 704
Steroid administration and nitrogen excretion in the head-injured patient, 714
Stroke
Cerebral amyloid angiopathy presenting as transient ischemic attacks. Case report, 963
Subarachnoid hemorrhage
Acute hydrocephalus after aneurysmal subarachnoid hemorrhage, 355
Barrier disruption in the major cerebral arteries following experimental subarachnoid hemorrhage, 433
Chronic subdural hematoma presenting as spontaneous subarachnoid hemorrhage. Report of six cases, 691
Cognitive impairment after early aneurysm surgery. Letter, 655
Delayed CSF lavage for arteriographic and morphological vasospasm after experimental SAH, 949
Dipyridamole and postoperative ischemic deficits in aneurysmal subarachnoid hemorrhage, 699
The morphology of cerebrospinal fluid drainage pathways in human arachnoid granulations, 867
Pressure-volume conditions in patients with subarachnoid and/or intraventricular hemorrhage, 398
S-100 protein and calmodulin levels in cerebrospinal fluid after subarachnoid hemorrhage, 417
Source of fibrin/fibrinogen degradation products in the CSF after subarachnoid hemorrhage, 573
Subarachnoid hemorrhage of unknown origin: prognosis and prognostic factors, 349
Timing of CT scanning after SAH. Letter, 817
Subdural empyema
Nonsurgical treatment of subdural empyema. Case report, 128
Subdural hematoma
Acute brain edema in fatal head injury: analysis by dynamic CT scanning, 830
Chronic spinal subdural hematomas. Report of two cases, 636
Chronic subdural hematoma presenting as spontaneous subarachnoid hemorrhage. Report of six cases, 691
Diagnosis of subdural hemorrhage *in utero*. Case report, 977
Unilateral subdural-peritoneal shunting for bilateral chronic subdural hematomas in infancy. Report of three cases, 134
Subdural pressure
Clinical evaluation of two methods of subdural pressure monitoring, 578
Subluxation
Intact arch spondylolisthesis. A review of 50 cases and description of surgical treatment, 840
Suction device
A self-retaining multipore suction tube. Technical note, 304
Superficial temporal artery
Cerebral revascularization to a main limb of the middle cerebral artery in the Sylvian fissure. An alternative approach to conventional anastomosis, 21
Suprachiasmatic nuclei
The pineal gland: anatomy, physiology, and clinical significance, 321
Supraorbital approach
Frontal sinus approach to the orbit. Technical note, 811
Syphilis
Cerebal gumma. Case report, 301

T cell growth factor
Immunoregulatory role in gamma interferon production by a T cell growth factor-dependent experimental malignant glioma-specific cytotoxic T lymphocyte clone, 763
T lymphocyte clone
Immunoregulatory role in gamma interferon production by a T cell growth factor-dependent experimental malignant glioma-specific cytotoxic T lymphocyte clone, 763
Tail
The human tail: a benign stigma. Case report, 461
Teratoma
Intracranial germ-cell tumors: natural history and pathogenesis, 155
Thermography
Thermography in assessing peripheral nerve injury: Correction. Letter, 654
Thromboxane
Eicosanoids in the central nervous system, 659
Thymidine kinase
Thymidine kinase in brain-tumor cysts, 568
Thyroid carcinoma
Skull metastasis of thyroid carcinoma. Study of 12 cases, 526
Torticollis
Spasmodic torticollis due to neurovascular compression of the 11th nerve. Case report, 789
Toxoplasmosis
Electron microscopic diagnosis of cerebral toxoplasmosis. Case report, 470
Training programs
Report of the Research Subcommittee of the Joint Committee on Education of the American Association of Neurological Surgeons and the Congress of Neurological Surgeons. Letter, 144
Tranexamic acid
Source of fibrin/fibrinogen degradation products in the CSF after subarachnoid hemorrhage, 573
Transcutaneous electrical nerve stimulation
Peripheral nerve stimulation suppression of C-fiber evoked

flexion reflex in rats. Part 1: Parameters of continuous stimulation, 612
Transfrontal sinus approach
Frontal sinus approach to the orbit. Technical note, 811
Transient ischemic attack
Cerebral amyloid angiopathy presenting as transient ischemic attacks. Case report, 963
Transorbital intracavernous biopsy
Transorbital intracavernous needle biopsy in painful ophthalmoplegia. Letters, 996
Transpetrosal approach
Transpetrosal approach for aneurysms of the lower basilar artery, 857
Transsphenoidal surgery
Early transsphenoidal pituitary surgery. Letter, 654
Fluid balance and secretion of antidiuretic hormone following transsphenoidal pituitary surgery. A preliminary series, 404
Transsphenoidal surgery following unsuccessful prior therapy. An assessment of benefits and risks in 158 patients, 823
Tumor marker
Immunohistochemical study of placental alkaline phosphatase in primary intracranial germ-cell tumors, 733
Thymidine kinase in brain-tumor cysts, 568
Turcot's syndrome
Turcot's syndrome (glioma polyposis). Case report, 804

Ultrasonic surgical aspirator
Cavitron ultrasonic surgical aspirator and visual evoked potential monitoring for chiasmal gliomas in children. Technical note, 138
Ultrasound
Assessment of intracranial hemodynamics in carotid artery disease by transcranial Doppler ultrasound, 890
Diagnosis of subdural hemorrhage *in utero*. Case report, 977
Ultrastructural study
Human neonatal hydrocephalus. An electron microscopic study of the periventricular tissue, 56
Morphological studies of human arteriovenous malformations. Effects of isobutyl 2-cyanoacrylate embolization, 421
The morphology of cerebrospinal fluid drainage pathways in human arachnoid granulations, 867

Vascular occlusion
Recirculation model following MCA occlusion in rats. Cerebral blood flow, cerebrovascular permeability, and brain edema, 272
Results of extracranial-intracranial arterial bypass for bilateral carotid occlusion, 521
Stenotic and occlusive disease of the venous drainage system of deep brain AVM's, 180
Use of balloon occlusion and substances to protect ischemic brain during resection of posterior fossa AVM. Case report, 626
Vasospasm
Barrier disruption in the major cerebral arteries following experimental subarachnoid hemorrhage, 433
Delayed CSF lavage for arteriographic and morphological vasospasm after experimental SAH, 949
Dipyridamole and postoperative ischemic deficits in aneurysmal subarachnoid hemorrhage, 699
S-100 protein and calmodulin levels in cerebrospinal fluid after subarachnoid hemorrhage, 417
Vein of Galen
Stenotic and occlusive disease of the venous drainage system of deep brain AVM's, 180
Venous drainage
Reduced systemic drug exposure by combining intra-arterial chemotherapy with hemoperfusion of regional venous drainage, 726
Ventricle
Arteriovenous malformations of the lateral ventricle, 185
Human neonatal hydrocephalus. An electron microscopic study of the periventricular tissue, 56
Ventricular catheter
A guide for ventricular catheter placement. Technical note, 985
Ventriculocele
Fourth ventriculoceles with extracranial extension. Letters, 479
Verapamil
Effects of verapamil and diltiazem on acute stroke in cats, 929
Potentiation of vincristine effect in human and murine gliomas by calcium channel blockers or calmodulin inhibitors, 905
Vertebral artery
The lateral spinal artery of the upper cervical spinal cord. Anatomy, normal variations, and angiographic aspects, 235
Occipital artery to extradural vertebral artery bypass procedure. Case report, 622
Vertebral body resection
Treatment of neoplastic epidural cord compression by vertebral body resection and stabilization, 676
Vertebral venography
Discography and vertebral venography before chemonucleolysis. Letter, 149
Vicryl mesh
Vicryl (polyglactin 910) mesh as a dural substitute, 448
Vincristine
Phase III comparison of BCNU and the combination of procarbazine, CCNU, and vincristine administered after radiotherapy with hydroxyurea for malignant gliomas, 218
Potentiation of vincristine effect in human and murine gliomas by calcium channel blockers or calmodulin inhibitors, 905

Wilkins, Harry
Harry Wilkins, M.D., 1904–1985, 315
Woodhall, Barnes
Barnes Woodhall, M.D., 1905–1985, 483

Xanthoastrocytoma
Pleomorphic xanthoastrocytoma with 18-year survival. Case report, 808
